

Puerto Rico NASA Space Grant
Cube Satellite Project
is accepting applications for the
2010-2011 academic year

PR NASA Space Grant (<http://prnasa.org>) invites
students and faculty to participate in the new
Cube Satellite Project (CubeSat)

Fifteen students and five faculty members will be selected to design, build, test, and track a CubeSat. Five teams will be established in five different academic institutions in PR to work on different subcomponents of the device. Principles of systems engineering will be applied to ensure that the subcomponents come together into a functional satellite. The CubeSat is planned for an orbital launch opportunity that is expected to become available around 2012.

Application Requirements for Students:

- Engineering, Computer Science or Physics Student
- Enrolled in an undergraduate or graduate program in Puerto Rico (BS, MS, PhD)
- Submit a recent transcript
- Fill out the student application form

Application Requirements for Faculty:

- Engineering, Computer Science or Physics Faculty
- Fill out the faculty application form

Application Deadline is Tuesday, April 27, 2010
