

ZOOM WEBINAR

OMICS APPLICATION TO CANCER STUDIES

SPEAKER: XIAOPING SU, PHD

April 23, 2021 at 1:30 PM

Webinar objectives:

1. Explain both genomics and transcriptomics application to cancer research including bioinformatics analysis approaches to both genomics and transcriptomics data.
2. Detection of cancer-associated virus including HPV in cancer patient samples by omics NGS data.
3. Explain epigenomics application to cancer studies including bioinformatics analysis algorithm for epigenomics data.
